FFIEC Cybersecurity Assessment Tool

In June 2015, the Federal Financial Institutions Examination Council (FFIEC) launched their Cybersecurity Assessment Tool to help institutions identify their risks and assess their cybersecurity preparedness. NCUA encourages all credit unions to use the FFIEC tool to manage cyber security risks.  AML/CFT obligations apply to entities that the BSA defines as "financial institutions," such as futures commission merchants and introducing brokers obligated to register with the CFTC, money services businesses (MSBs) as defined by FinCEN, and broker-dealers and mutual funds obligated to register with the SEC. Among those AML/CFT obligations are the requirement to establish and implement an effective anti-money laundering program (AML Program) and recordkeeping and reporting requirements, including suspicious activity reporting (SAR) requirements.

Senators introduced S. 2563, ILLICIT CASH Act

Recently, S. 2563, the Improving Laundering Laws and Increasing Comprehensive Information Tracking of Criminal Activity in Shell Holdings (ILLICIT CASH) Act was <u>introduced in the Senate</u>.

This bill addresses the redundancies, unnecessary burdens, and opportunities for efficiencies within the Bank Secrecy Act/Anti-Money Laundering (BSA/AML) statutory framework. However, it is important to note that regulatory regimes like the Bank Secrecy Act can cause an undue burden, particularly for smaller financial institutions, and should be a scalable framework.
